Re: Missoula 2, 3 Re-roof

Dear Sir:

We wish to express our appreciation for your work re-roofing our chapel. We were very impressed not only with how quickly you completed the work; but how well you complied with the contract documents. The workmanship of your installation was excellent.

Something which may not be too important to other owners; but was very significant to us was how you scheduled your work to avoid interfering with our programs. We also appreciated how clean you kept the site. Roofing is a messy job. Most of our re-roof contractors struggle to maintain a tidy site. Since this is a Church our members attend this building in their 'Sunday Best'. There would certainly have been problems, if you had not kept the site clean the way you did.

Once again, thank you very much for the work you did for us.

Yours truly,

David L. Clark,
Project Manager
